149 X 174 cm

## **Kirstine Roepstorff**

Born in Denmark in 1972

She lives and works in Copenhagen and Berlin

Kirstine Roepstorff's medium is large scale collages, where images of political demonstrations and exploited nature are mixed together with seductive images of blossoming flowers, shimmering pearls, colorful cut-outs and a sprinkle of ...glitter:

Roepstorff's works are often overtly political ("poetic politics") dealing with the sensitive balance and the gravity of the production of meaning in the world we live, while at the same time, she plays with abstractions and figurations recognizable to most viewers.
